as my and navy of the republic, who have achieved such brilliant victories while marching behind the star Spangled ban ner and who have made the American flag respected and honored in every quarterior the world. Particularly are we proud of the brave sone of New Mexico, who have faced death at the point of the bayonet.

by the spectacle of the flag of the Union being borne in triumph up San Juan hill and raised over the city of Santiago,

where to-day it floats proudly over a people whose freedom New Mexico valor has contributed largely to achieve. We demonice the action of Harvey B. Fergusson, delegate to congress, in introducing and working for the passage of a bill to locate the territorial capital in another than his home city. Such action on his part was traiforous to Albuquerque, her people and her interests, and should be remembered by all the people of this county upon election day.

We denounce the carelessness of Detagate Fergusson in so drafting a bill to poses, that it will require an unnecessar expenditure of fifteen or twenty thous and dollars to enable the schools of this territory so receive the lands which they would be entitled to under said bill. We believe that if a \$5,000 congressman can squander \$15,000 on one bill, we had better either have no congressman or in-struct him to pass no bills.
